

# Christmas Past, Present And Future

[Ashlee Simpson](#)

I'll be your girl of Christmas past  
I'll be your girl of Christmas present  
I'll be your girl of Christmas future  
'Cause you make me wanna say  
Back when we were ten, we were the best of friends  
But who knew back then that this love would never end?  
Now that we are grown, I never feel alone  
On this Christmas Eve, by your side I wanna be  
Snow is falling down, cheer is all around  
Makes me wanna say, I will be right here  
I'll be your Christmas past, present and future, baby  
Your yesterday, everyday, tomorrow too  
I'll be your Christmas past, present and future, baby  
I will be right here  
I'm gonna be there for you  
My heart goes jing a ling, each time those sleigh bells ring  
We'll forever be together, you're my everything  
I know that this is real, I like the way it feels  
When we're hangin' by the fireside, cuddling  
Under the mistletoe, I'll show you what I know  
You'll be my present, baby, and I'll never let you go  
'Cause at this Christmas time, so glad that you are mine  
Makes me wanna say, I will be right here  
I'll be your Christmas past, present and future, baby  
Your yesterday, everyday, tomorrow too  
I'll be your Christmas past, present and future, baby  
I will be right here  
You know I'm gonna be here  
Not just a Christmas thing  
Year 'round, the joy you bring  
It just makes my heart sing when I'm with you  
So at this Christmastime  
With your lips kissing mine  
I'm gonna celebrate this love we share  
I'll be your Christmas past, present and future, baby  
Your yesterday, everyday, tomorrow too  
I'll be your Christmas past, present and future, baby  
I will be right here  
I'll be your Christmas past, present and future, baby

Your yesterday, everyday, tomorrow too  
I'll be your Christmas past, present and future, baby  
I will be right here  
I will be right here
