

A Day at a Time

Clay Shelburn

A Day At A Time
Ive been beaten
Ive been used
Ive been lied to
And abused
Blindsided with a roundhouse right
Dazed and confused, I was seeing lights
Lessons Ive learned on the rebound
Lessen the strength of life's beat down
Ive decided to take a chance
And not be slave to my own circumstance
Do what you do
And be who you are
Where there's a will, there's a way
For you to survive
Just take a say at a time
Yeah just take it all a day at a time
Haters gonna hate and say what they will
They're always looking for somebody's thunder to steal
Keep your head held high, keep trucking along
There's satisfaction in proving them wrong
Lessons I've learned on the rebound
Lessen the strength of life's beat down
Don't come crying if it dont work out
Keep your feet on the dirt but leave your head in the clouds
Do what you do
And be who you are
Where there's a will, there's a way
For you to survive
Just take it away at a time
Yeah just take it all a day at a time
Do what you do
And be who you are
Where there's a will, there's a way
For you to survive
Just take it away at a time
Yeah just take it all a day at a time
