# Is There a Mountain

## Carroll Roberson

Is there a mountain
That I need to climb
Is there a vally
You want to make mine

Is there a river
I need to crawl through
Whatever it takes
I'm willing to face
To be close to You

Dear Lord I believe
With all of my heart
That the old rugged cross
Give me a new start

But somehow I long
The touch of your hand
And I'm willing to do
And to go through
Anything You command

Is there a mountain
That I need to climb
Is there a vally
You want to make mine

Is there a river
I need to crawl through
Whatever it takes
I'm willing to face
To be close to You

Instrumental

I want to be
In Your perfect will
If it takes a mountain
If it takes a hill

We'll move anyting

That stands in the way
Whatever the price
To have You in my heart
Deat Lord I pray

Is there a mountain
That I need to climb
Is there a vally
You want to make mine

Is there a river
I need to crawl through
Whatever it takes
I'm willing to face
To be close to You

Whatever it takes
I'm willing to face
To be close to You
