

What Took Ya so Long

Jay Allen

(Verse 1)

Middle of the night, without a trace

You left this house an empty space

Only thing I found was a letter with the words "it's over."

I never saw it coming, didn't see the signs

They always say that love is blind

I guess sometimes leaving, can sometimes lead you home

(Chorus)

What took ya so long?

Was it me being gone?

Was it sleeping alone?

Seen my number lighting up your phone?

Was it seeing my face?

Hearing my name?

Knowing goodbye was like your biggest mistake?

I've been waking up, staying up, praying for you to see you were wrong

What took ya so long?

(Verse 2)

Felt like a never ending night

But it was worth the wait to know I was right

Counting down the hours and the days

Always knew you'd come back

Well I guess you had to go and lose yourself just to find out you were mine

(Chorus)

What took ya so long?

Was it me being gone?

Was it sleeping alone?

Seein my number lighting up your phone?

Was it seeing my face?

Hearing my name?

Knowing goodbye was like your biggest mistake?

Iâ€™ve been waking up, staying up, praying for you to see you were wrong

What took ya so long?

What too ya so long?

(Bridge)

Guess sometimes leaving, can sometimes lead you home

(Chorus)

What took ya so long?

Was it me being gone?

Was it sleeping alone?

Seein my number lighting up your phone?

Was it seeing my face?

Hearing my name?

Knowing goodbye was like your biggest mistake?

Iâ€™ve been waking up, staying up, praying for you to see you were wrong

What took ya so long?

What took ya so long?

Iâ€™ve been waking up, staying up, praying for you to see you were wrong

What took ya so long?
