

Come Alive

[Todd Dulaney](#)

We come alive in You
Come alive in You
Ever since You took the shame awayWe come alive in You
Come alive in You
And we'll never be the same againThe only One who
Can breathe life into dead
And make it rise again
Takes the old things
And makes it brand new
Takes the filthy, makes it clean
We're singing loud now
'Cause we're alive
And You've given us a song to sing
We can't keep silent
Cause there are some that still need to be set freeWe're getting stronger
With You there's greaterWe come alive in You
Come alive in You
Ever since You took the shame awayWe come alive in You
Come alive in You
And we'll never be the same againWe come alive in You
Come alive in You
Ever since You took the pain away
We come alive in You
Come alive in You
And we'll never be the same againWe're singing loud now
'Cause we're alive
And You've given us a song to sing
We can't keep silent
Cause there are some that still need to be set freeWe're getting stronger
With You there's greater
We feel Your power
It's rising in usWe come alive in You
Come alive in You
Ever since You took the shame awayWe come alive in You
Come alive in You
And we'll never be the same againWe come alive in You
Come alive in You
Ever since You took the pain awayWe come alive in You
Come alive in You

And we'll never be the same againWe're getting stronger
With You there's greater
We feel Your power
It's rising in usWe're getting stronger
With You there's greater
We feel Your power
It's rising in usWoah, You make all things new
Woah, You make all things new
Woah, You make all things new
Woah, You make all things new
Woah, You make all things new
Woah, You make all things newWe come alive in You
Come alive in You
Ever since You took the shame awayWe come alive in You
Come alive in You
And we'll never be the same againWe come alive in You
Come alive in You
Ever since You took the pain awayWe come alive in You
Come alive in You
And we'll never be the same again
