

Mother Dear

Blood for Blood

Yeah, yeah
Oh shit, love comes back
Let's go Here I am
I am a monster but I was made
Here I stand
Well, I am a beast that was born of pain
Born of pain
Bred to hate in this world gone insane
But now I'm here to stay and I live to spit in your face 'Cause I am from outside
And I am everything that you despise
Bred to hate in your society's eyes, it's a society of lies
And I live to spit in your face One, two, three, four
[Incomprehensible], top of the world Oh, mother dear
Look at your darling young one
Mother dear
Look at what I have become
Mother dear
I am your bastard disgrace
Mother dear
I will spit in your face I will spit in your face
I will spit in your face
I will spit in your face
I will spit in your face
I will spit in your face
