

I'll Do It All (feat. LaToiya Williams)

Busta Rhymes

[LaToiya Williams (Busta)]

I, I never thought

That I, could find (excuse me miss)

Someone, so special (can I have a word wit' you baby)[Busta Rhymes]

Miss can I get a second to speak and quietly mention

That I am so into who you are, can I get your attention

My observations of you creates conversations for you

And if you got a little time, I got the patience for you

Okay? Good, you giving me the time to talk?

While I figure it out and sort what I'm trying to say, let's walk

Just trying to keep it gutter, respectfully I won't stutter

Don't you agree, we look better when we walk with each other?

I've seen you many times, yes I've encountered many dimes

I'm feeling something special with us, it's just one of the many signs

I think that we have to look forward to our go-through

Any war with you regardless what it is I'm trying to score with you

Sometimes I think and wonder especially through rain and thunder

If I'd ever find the one to ride when I'm on top or under

Until we reach the end, ma with love as I be your friend

Oh, here you can take my number, I hope we can speak again[Chorus One: LaToiya Williams]

No matter how mister, no doubt I'll die with ya

Until the end of life, lay down on the ground with ya

I'll give my life to you, I hope it all comes true

Ready to start for you, I give all my heart to you

And when together I hope we never fall apart you know

Now that it feels so good, our thoughts are understood[Busta Rhymes]

I'd like to learn from ya, but I'm 'bout to turn from ya

It's been about a week and I ain't even heard from ya

Is it something at all or did I just bump in and fall

And even though you did I see how you was reluctant to call

But it's nothing to crawl before we walk (oh) listen

And it's nothing to stall before we talk, look

To tell the truth I'm happy I found you and that I can be around you

And thus I'm digging you, I ain't just trying to pound you

I'm only trying to crown you and wife you and wedding gown you

Regardless what I'm with, shorty seem like she always down to
just spend a little time and then click, you know that kind of chemistry

The recipe to then SIP, and a little bit of wine

Mami I like your kind that light the fireworks and bombs up

The type of chick I wanna talk about when I call my moms up
Until the love is empty I credit the one who sent me
The most beautifullest woman and she riding with me[Chorus Two: LaToiya Williams]
(I'll do it all) I'll do it all with ya, go through any door with ya
It doesn't matter I will, go against the law with ya
Just know you live through me, your love is all I need
If you ain't know you make me, no one's ever shown you baby
Your dedication and commitment got me going crazy
Your love so real to me, and that's all that I, can see[LaToiya Williams]
This is a thing I wanna feel forever, and I ain't going nowhere
Cause you mean so much to me
No matter how my people try to doubt ya, I know the truth about ya
It doesn't matter to me
Baby I love you and I always told ya, I'm always here to hold ya
Cause you do so much for me
No matter how they try they can't deceive us, nothing can come between us
Cause you mean so much to me[Busta Rhymes]
Listen, trust me and I will trust you, I ain't into trying to fuss boo
Deeper than any lust, I'm only trying to mind fuck you
That's probably why and maybe I can nickname you my baby
Now that you made me a man you're officially now my lady
Despite the stormy weather I cherish your love forever
And nourish everything we have 'til we grow old together
I'll never trick you, mislead or try to be shaky with you
I only wanna make all the rest of my babies with you[Chorus 1 & 2]
