

Get Your Kicks

Freddie Nystrom

There's a lady on a boat
A one that just barely float
She can make or break your day
That's what I hear them say

You can get your kicks
If you can do the tricks

They say it's tight
Just about every night
The line is fine
Between water and wine

You can get your kicks
If you can do the tricks

guitar solo part

There's a lady on a boat
A one that just barely float
She can be your friend
Or just make pretend

You can get your kicks
If you can do the tricks
