

Go Ahead and Break My Heart (feat. Gwen Stefani)

Blake Shelton

[Verse 1: Blake Shelton]

I'm certainly sitting on your last good try
Here I am again with half a goodbye
Wonder if you're really gone this time
Just when I'm about to lose my mind
There you are again on my phone
The moon is rising and you're all alone
Maybe we could just hang a while

Maybe we can make each other smile[Pre-Chorus: Blake Shelton]

Oh no, here I go[Chorus: Blake Shelton & Gwen Stefani]

Why don't you go ahead and break my heart?

Why are you waiting, is it way too hard?

If moving on is what you wanna do

Why don't you do it? Why don't you do it, baby?

You can't tell me that we'll still be friends

And maybe someday we can try again

If you really need a brand new start

Why don't you go ahead and break my heart?[Verse 2: Gwen Stefani]

I'd never ever meant to get so into you

Thought I was using you just to get me through

You know I'm broken, I don't trust anyone

Last thing I needed was to fall in love

You've got me dreaming, got me thinking, I've got some hope

There is nobody else I wanna get to know

But I'm so scared, I don't know what to do

How did you get me so into you?[Pre-Chorus: Gwen Stefani]

Oh no, here I go[Chorus: Blake Shelton & Gwen Stefani]

Why don't you go ahead and break my heart?

Why are you waiting, is it way too hard?

If moving on is what you wanna do

Why don't you do it? Why don't you do it, baby?

You can't tell me that we'll still be friends

And maybe someday we can try again

If you really need a brand new start

Why don't you go ahead and break my heart?[Bridge: Blake Shelton & Gwen Stefani]

There's your reasons

There's your cards

What are you waiting for?

The one to break my heart[Outro: Blake Shelton & Gwen Stefani]

Yeah, you can't tell me that we'll still be friends
And maybe someday we can try again
If you really need a brand new start
Why don't you go ahead and break my heart?
Oh, go on and break, go on and break my heart
Go on and break, go on and break my heart
