

# Still Life

## Adorable

He was born without a sigh  
And she left without a fight  
This is not God, it's just the way things are

Be still, my still-born brother  
And be still, my still-born lover  
And be still

He was buried without a name  
She buried love very much the same  
This is not love, it's just the way things are

Be still, my still-born lover  
And be still, my still-born brother  
And be still, my still-born lover  
And be still  
And be still
