Skin & Bones

Lex Low

You just sit and watch me cry,
all I want is your intention,
I can make you change your mind.

You`ve been spending all your time,
thinking about all our problems,
I just need to feel alive.

We sleep together,
but our lips don`t touch.
We said forever,
but it`s not good enough.
We said we`ve make it,
but there`s no love.(x3)
All of this` just skin and bones,
all of this` just skin and bones.
Take me home, take me home.

You just sit and watch me cry,
all I want is your intention,
you`re leavin` and my eyes run dry.

You just watch our life throw by,
you`re strong enough to make this happen.
If i just kiss you one more time.

We sleep together,
but our lips don`t touch.
We said forever,
but it`s not good enough.
We said we`ve make it,
but there`s no love.(x3)
All of this` just skin and bones,
all of this` just skin and bones.
Take me home, take me home.

(I can kiss you one more time)
Ahaaa.
(I can kiss you one more time)
Please just...

(I can kiss you one more time ohooo yeah)
