

# Messin' Around

## Fess Williams

If it's pure and it's simple  
Does it make it right?  
Like I always said child  
Life is hardly black and white  
When you're(Messin')  
Messin' around  
(Messin')

Messin' around Girl slide up to you  
Lightening bolts in her eyes  
You know her actions  
Speak louder than words  
You know that it's hard to fight(Messin')  
Messin' around  
(Messin')

Messin' around So keep coming on baby  
Keep coming on strong  
Maybe you can save me  
But before too long We'll be coming on baby  
We'll be coming on strong  
My dead eyes will open to light in this world  
Before too long If it's pure and it's simple  
Does it make it right?  
Like I always said my child  
Life is hardly black and white(Messin')  
Messin' around  
(Messin')

Messin' around So keep coming on baby  
Keep coming on strong  
Maybe you can save me  
But before too long We'll be coming on baby  
We'll be coming on strong  
My dead eyes will open to light in this world  
Before too long So keep coming on baby  
Keep coming on strong  
Maybe you can save me  
But before too long We'll be coming on baby  
We'll be coming on strong  
My dead eyes will open to light in this world  
Before too long(Messin')

Messin' around  
(Messin')  
Messin' around
