

# Original (JVNTOR Bootleg)

## Leftfield

Sonically we're in control  
We're the diamond in your soul  
Images come thick and fast  
From the future, from the pastThe film starts, the film ends,  
Nothing is said in between.  
Just sudden moments from someone else's story,  
Will it ever be the same again?  
Hours filled with conversation, no attention paid.  
Too distracting convention, no need for friends.  
Will it ever be the same again?  
Will it ever be the same again?You're original, with your own path  
You're original, got your own way (x2)Will it ever be the same again? (x2)  
I need to hear that again  
Because a dream starts, and a dream must end.My mother told me, don't ever change  
You're original, in your own way  
My mother told me, don't ever change  
You're original, got your own pathYou're original (x2)  
Will it ever be the same again? (x2)  
I need to hear that again  
Because a dream starts, and a dream must end.You're original (x5)
