

Sweet and Low

Meadowland

One of them boys who just left work
He smiles unhappy at the clerk Always sweet and low
Always sweet and low
Always sweet and low
That's how we go One of them girls at a cafe
Who pours no sugar in latte Always sweet and low
Always sweet and low
Always sweet and low
That's how we go There's no color in the faces
There's just no color in the eyes Always sweet and low
Always sweet and low
