New World Order

Steel Pulse

I'm in an angry mood, yeah
Got an attitude, oh yeah
Things are overflowing
In this your melting pot
Justice here has been stolen
From the have notsI've come to a conclusion
It's time for a revolution
It's the only solution
That brings about a change, yeah
I've lost all my patience
Pressured by this violence
I refuse to be silent
And buckle up in painAnd things are overflowing
In this your melting pot
Justice has been stolen
From the have notsIn this your new world order
Well, totally out of order
In this your new world order
Say them, totally out of order
Oh yeah, ohSo much exploitation
Upon this third world nation
You've appointed yourself
The policeman of the world
Talking about lifting sanctions
For your satisfaction
Robbed of our silver and gold
Our diamonds and our pearlsYou go at that mans country
Make war and kick him out
It's just the same old story
Burn down the great White HouseIn this your new world order
Well, were they totally out of order
In this your new world order
Totally out of orderYou'll change, yes we want change
I'm in an angry mood
Got to rearrange
I've got an attitude
Yes we want change
Oh, I'm so vex nowChase them out and
Kick them down

Drive them away out of town
This your rebel time is now
We the people, nah go bowI've come to a conclusion
It's time for a revolution
It's the only solution
That brings about a change, yeah
I've lost all my patience
Pressured by this violence
I refuse to be silent
And buckle up in painIn this your new world order
Well, well they're totally out of order
In this your new world order
Well, well they're totally out of orderMess up and out of order
Mash up and out of order
Say bruk up and out of order
Muck up and out of orderTotally, overly, utterly, facetelly
All that gwaan
We know them a folly
Out of orderMess up and out of order
Mash up and out of order
