

# Spaceman

## Cinema Bizarre

[Cover of Babylon Zoo's song]Spaceman

I always wanted you to go into space manPungent smells, they consummate my home  
    Beyond the black horizon  
        Trying to take control  
    See my girl, she shivers in her bones  
        The sun and zenith rising  
    Trying to take us allThere's a fire between us  
        So where is your god?  
        There's a fire between us  
        I can't get off the carousel  
    I can't get off this worldThe sickening taste, homophobic jokes  
        Images of fascist folks  
        Beam me up cause I can't breatheSpaceman  
I always wanted you to go into space manIts time to terminate this great white world  
    Morbid fascination  
    Television takes control  
    Decimation, different races fall  
        Electronic information  
    Tampers with your soulThere's a fire between us  
        So where is your god?  
        There's a fire between us  
        I can't get off the carousel  
    I can't get off this worldThe sickening taste, homophobic jokes  
        Images of fascist folks  
        Beam me up cause I can't breatheSpaceman  
    I always wanted you to go into space man  
        Spaceman  
    I always wanted you to go into space man  
        Spaceman  
    I always wanted you to go into space man  
        Spaceman
