After All

Jonathan Clay

And it was no accident
that we haven't seen
and everything worked out just like you planned
it's not my place, to mess with fate
you can't control what isn't in your hands

and after all I don't regret a thing
I want to thank you for showing me this life
and after all I don't regret a thing
'cuz I know you and I know you
I know you'll be alright

Holdin' hands and makin' plans
forever didn't seem so far away
it's hard to think, it was you and me
tangled up together in that frame

and after all I don't regret a thing
I wanna thank you for showing me this life
and after all I don't regret a thing
'cuz I know you and I know you
I know you'll be alright

and it's hard even when you know it's for the best
'cuz the whole time you're still askin'
could it be another test

and it's hard even when you know it's for the best
'cuz the whole time you're still askin'
could it be another test

(x2)
and after all I don't regret a thing
I wanna thank you for showing me this life
and after all I don't regret a thing
'cuz I know you and I know you
I know you'll be alright
