Dancing With Tears in My Eyes

Leadbelly

Here We go
Welcome to my Funeral
Without you
I don't even have a pulse
All alone it's dark and cold
With every move I die

Here I go this is my confessional
A lost cause nobody can save my soul
I am so delusional
With every move I die

I have destroyed our love its gone
Payback is sick its all my fault

I'm dancing with tears in my eyes
Just fighting to get through the night
I'm losing it (losing it) [x3]
With every move I die
I'm faded I'm broken inside
I've wasted the love of my life
I'm Losing it (losing it) [x3]
With every move I die

When did I become such a hypocrite
Double life, lies that you caught me in
Trust me I'm paying for it
With every move I die
On the floor I'm just a zombie
Who I am is not who I wanna be
I'm such a tragedy
With every move I die

I have destroyed our love its gone
Payback is sick its all my fault

I'm dancing with tears in my eyes
Just fighting to get through the night
I'm losing it (losing it) [x3]
With every move I die

I'm faded I'm broken inside
I've wasted the love of my life
I'm Losing it (losing it) [x3]
With every move I die

This is it
And now you're really gone
this time
Never once thought
I'd be in pieces left behind

Im dancing with tears in my eyes
Just fighting to get through the night
I'm losing it (losing it) [x3]
With every move I die
I'm faded I'm broken inside
I've wasted the love of my life
I'm Losing it (losing it) [x3]
With every move I die
