

So Very Real

Klank

When I'm at my weakest you make me strong
You're the only reason I press on
You give me shelter from the storm
The way you hold me close and keep me warm
Sit and think about you all the time
Can't seem you get you off my mind
I know you're with me by my side
I can feel the numbness from inside
You give me shelter from the storm
And now I know what I've missed all along
Sit and think about you all the time
Can't seem you get you off my mind
Sit and think about you all the time
Can't seem you get you off my mind
Hey did ya know
For the first time I can really feel
Hey did ya know
More than ever I know that your real
So very real
