Nothing to Lose

Shakra

Out in the desert
Where the lights never fade
We had to stop for the night
Walked down the strip
Temptation all around
Oh god how could I resistI always take a chance
And roll the dice
'cause all we do
Is just a gameSo many ways-To win or to lose
We've got nothing-Nothing to lose
So many ways-To win or to lose
We keep on tryin'-That's what we chooseWe made our way
Back to the Hollywood-sign
Where dreams and hopes unite
Where angels die
And stars are risin' high
Where only the best surviveI always take a chance
And roll the dice
'cause all we do
Is just a gameSo many ways - To win or to lose
We've got nothing - Nothing to lose
So many ways - To win or to lose
We keep on walkin' - The way that we choose
