Scream

[White Arrows](#)

I was pushin'
Yet all I see
I was pushin' but you pushed it back on me
You're thinking something
Hard to define
I kept on searching boy but nothing came to mindI wanna make you scream
I'll give you everythingI was looking
There through the trees
I looked away you know it never comes with these
Look to the maker
So I can find
I felt it coming but I couldn't see the signI wanna make you scream
I'll give you everything
I wanna make you scream
I'll give you everythingIt doesn't matter what I wanna do
It's gonna be with you
It doesn't matter what you say
You know it's gonna be that wayAnd when I go there
I go with you
And when I go there
I go with youI wanna make you scream
I'll give you everything
I wanna make you scream
I'll give you everything
