

# I Did With You

## Lady Antebellum

I remember thinking 'bout forever  
Sitting there with you by the river  
We danced in the little lights  
And fell for the first time I remember telling you I loved you  
The Northern star rising above you  
And in that moment I, thought every dream  
Would come true  
Oh, but, some just never do Love comes in circles  
And love takes it's own time  
Bending and breaking, not taking a straight line  
I never knew, I never loved timeless and true  
Oh, I did, yeah I did with you.

Oh, I did, I did with you. Through the years I just kept on believing  
Had to be a plan or a reason But Heaven was silent and life just kept moving along  
'Till my heart knew the moment was gone Love comes in circles  
And love takes it's own time  
Bending and breaking, not taking a straight line  
I never knew, I never loved timeless and true  
Oh, I did, yeah I did with you. Love is the reason why  
Miracles never die They just live on and on  
Like a song, like a song  
In the hearts of ones you leave behind  
Ooh, yeah Love comes in circles  
And love takes it's own time  
Bending and breaking, not taking a straight line  
I never knew, I never loved timeless and true  
Oh, I did, yeah I did with you.  
Oh, I did, yeah I did with you.
