

# Take It On (feat. jACQ)

## Sick Individuals

Odd feel  
I don't give up  
And you will find your way  
You're way back to the sun  
You're way to everything We don't need  
To hide in the dark  
Ever  
Never And you will shine  
If you never ever give up  
You can just take it on You will shine  
If you never ever give up  
You can just take it on You can just take it on  
Take it on  
You can just take it on (You will shine)  
If you never ever give up  
You can just take it on (Instrumental) Take it on  
Take it on  
You're not so far away  
Surrender to the sun  
Tonight I'm all your day We don't need (We don't need)  
To hide in the dark  
Ever (And you will shine)  
Never (And you will shine) And you will shine  
If you never ever give up  
You can just take it on You will shine  
If you never ever give up  
You can just take it on You can just take it on  
Take it on  
You can just take it on (You will shine)  
If you never ever give up  
You can just take it on (Instrumental)  
If you never ever give up  
You can just take it on
