We Call This Dancing

The Parlotones

Prospects drive us we don't need all the facts
Gotta keep moving
Not quite sure of the route design our own map
MovingWe call this dancing
Our love is flowing
Our hearts explodingBursting out of our skins
Our hearts exploding
Escape from this life
We call this dancingIf all you need is love,
Our love is over flowing
Escape from this life,
We call this dancingGolden woven sunrays splash on our face
Our love is flowing
Honey coloured moonbeams tickle and trace
Our hearts explodingWe call this dancing
Our love is flowing
Our hearts explodingBursting out of our skins
Our hearts exploding
Escape from this life
We call this dancingIf all you need is love
Our loveis over flowing
Escape from this life
We call this dancing
