

The Real Feel

Abstract Artimus

It's been a long time since we last hit the sheets
Fucked like dogs and sweated from the body heat
I was movin' my ass slowly and you told me to hold you
And like a folder, you told me to fold you To the position where I get it from the backside
Open your legs wide and let me get inside
Caressin' your body and you're scratching my back up
I'm strokin' and yo pussy chokin' so I just slack up Stroke it like a real one, I grab ya side
Ya tellin' me how it feels so good as my dick slips and slides
In and out ya pussy as you tell me you're cummin'
The way my dick rocked that ass I swear I was drummin' Here I cum, dumb ditty dumb, I gotta nut so
Can't hold it no longer so I let it flow
Oh damn, oh, you on the pill, you told me to chill
I didn't wear a rubber 'cuz I like the real feel The feel, it's just gotta be real
The feel, it's just gotta be real
The feel, it's just gotta be real
The feel I like a pussy to be wet, steamin' hot when I get inside
I bet it's sweat but yet, still, I don't like a dead fuck
Talking 'bout makin' love, can't even get my head sucked
Fuck that, I'm on the other tip
Bitch, come my way and get dick whipped I like bitches, bitches let me break it down
Some ho's wanna fake it, don't even make a sound
You see, I cum like the ocean and stroke like a breeze
The friction from my stroke made it 100 degrees In the room, I ride that ass like a broom
This is another fuck song, this ain't a dance tune
I made it like this 'cuz I'm not your love maker
I'm a back breaker, it take a strong pussy to take a Dick like this but you would love the pain
You would love the strain, get tired and change
But I'm a contain my nut until your ready to deal
'Cuz I'm a chill and I like the real feel The feel, it's just gotta be real
The feel, it's just gotta be real
The feel, it's just gotta be real
The feel Let's pretend, we're married and carry on like fool's
I'll break your pussy like a high school rule
We're fuckin' and suckin', I'm strokin' and hopin'
You'll have the strength to keep your legs open No doubt, you do so I put you in the buck
Your pussy lips suck every time we fuck
Your cummin' like water and drippin' from slippin'
My dick is the belt and ya get an ass whippin' You love me so you take the pain but it hurts so good
Flip you on yo stomach and fuck you like a man should

Call you my baby 'cuz you fuckin' me crazy
My dick gets hard if you look at me or graze me I'm so in love with fucking you, everyday that's what we do
[Unverified] me and you F U C K I N G
I ain't tryin' to hurt your feelings 'cuz you know the deal
I like you but I love the feel The feel, it's just gotta be real
The feel, it's just gotta be real
The feel, it's just gotta be real
The feel
