Surround Me

Scott Stapp

They say no man's an island but I tend to disagree I guess they've never seen my island and where it lies at sea I'm lost inside my memory I'm still in disbelief If I could paint a picture for you this is what you'd seeI'm down on my knees Begging you to rescue me Please stop me don't let me run Surround me, surround me nowA wounded man sounds desperate when he's lost all his belief Can you look into my eyes and say you won't betray me We're running out of time how precious time can be I'm counting all the moments of the times you could have helped meI'm down on my knees Begging you to rescue me Please stop me don't let me run Surround me, surround meI'm down on my knees Begging you to rescue me Please stop me don't let me run Surround me, surround meSurround me now Surround me now
