Texas

Trae tha Truth

Walking across this Texas desert with
the sun beating on his back
Carries a cross
these burning sands
without leaving a single track
Sing a song a six pack
and praise the lord for your salvation
Second coming up and running from the
federal government's intervention
Blood on the X of Texas
Blood on the X that Texas spilt
Blood on the X of Texas
Blood in the house that David built
Messiah on a six string sings a song
that's in demand
Lone gunman in the Lone Star State
hunts his fellow man
Deep in the heart of Texas the bullet
finds its mark
Deep in the heart of Texas his head
gets blown apart
Blood on the X of Texas like a cross hair
Y'll remember the Alamo but don't you forget about Waco
Blood on the X of Texas
Blood on the X that Texas spilt
Blood on the X of Texas
Blood in the house that David built
Blood on the X of Texas
