

Lost In You

[Garth Brooks](#)

There's no more waitin', holdin' out for love
You are my Godsend that I have been forever dreamin' of
My angel from above Heaven knows, I'm head over heels and it shows
I've played every field, I suppose
But there's something about you when you're around
Baby, I have found, I get lost in you What is this feeling I've never known before?
That I should dare to, swear into, surrender ever more
That's what I came here for Heaven knows, I'm head over heels and it shows
I've played every field, I suppose
But there's something about you when you're around
Baby, I have found, I get lost in a wonderful daze
Lost in your wonderful ways, Heaven knows When you're around, baby, I have found I get lost Heaven knows,
I'm head over heels and it shows
I've played every field, I suppose
But there's something about you when you're around
Baby, I have found, I get lost in you
