

# This Is No Place

## Urge Overkill

She can't remember coming home  
And I don't know her name  
She woke up early now she's gone  
Here we go again  
This is not my way  
Guess I lost my way  
This is no place  
This is no place I wanna be  
This is nowhere  
This is nowhere to be  
It's already getting dark  
And she's still not home  
Somethin's following me I know  
There's gonna be a storm  
Guess I can't get over it  
Guess I can't get over it  
This is nowhere  
This is no place I wanna be  
This is nowhere  
This is nowhere to be  
You can change the way you are  
Sometimes I don't want to pull that hard  
This is nowhere, this is no place  
I wanna be that I wanna be  
This is nowhere, this is nowhere to be  
I can't remember coming home  
She don't know my name  
She woke up early now she's gone  
Here we go again  
This is not my place  
Guess I lost my way  
You can change the way you are  
Sometimes we don't want to push that hard  
This is no place  
This is no place I wanna be  
This is nowhere that I wanna be  
This is nowhere to be
