Over

JOHNNYSWIM

Don't say you miss me anymore
You don't know the meaning
Oh you slipped out the back door
You think I'll take you back I wont
Yeah I'll keep the memories keep your distance I let you go
'Cause your love is on fire on mountain tops not down with me
Your heart is so wild but never freeSo wake me up the dream I had is over
We were so young and now were getting older
And I cant keep on giving you what might be meant for someone new
Wake me up the dream I had is overAll those love letters that we sent
They're finally locked away the revelry is a decadence
And all those goodbyes we never meant
Oh no this time I wont be welcoming a wasted breath
'Cause your love is on fire on mountain tops not down with me
Your heart is so wild but never freeSo wake me up the dream I had is over
We were so young and now were getting older
And I cant keep on giving you what might be meant for someone new
Wake me up the dream I had is overOoh say goodbye say goodbye
Ooh say goodbye say goodbye
Let it die let it die
Ooh oohSo wake me up the dream I had is over
We were so young and now were getting older
And I cant keep on giving you what might be meant for someone new
Wake me up the dream I had is over
