Remnant

The Fold

We are the remnant, the boulder stands
The disconnected, the after plan
An alien from other place
Breathing your air and taking up spaceNo longer empty out your words
No longer empty out your words, ohMany days that we come away
And are we get, get, getting it?
Many days that we come away
And are we getting it, getting it down?We are the remnant, the boulder stands
Beneath the ocean, the earth and sand
They own the circle, they earned it well
Erect the statues and convince themselvesNo longer empty out your words
(No longer will keep breathing)
No longer empty out your words
(What say you Ill become the remnant)Many days that we come away
And are we get, get, getting it?
Many days that we come away
And are we getting it, getting it down?Dont you breed
Dont breed anymore, ohDont breed anymore
Dont breed anymore
Dont breed anymore, oh, oh, ohMany days that we come away
And are we get, get, getting it?
Many days that we come away
And are we getting it down?Many days that we come away
And are we get, get, getting it?
Many days that we come away
And are we getting it down?Many days, many days, many days
Many days, many days, many days
