Life Design

The Parlotones

Oh a cinematic landscape of fantasy
Visionaries' soldier on, soldier on towards a destiny
Rip, rip, rip it up the cynics bible cast our eyes towards the happy people
Stretch, stretch, stretch it out our treasure map, shooting stars will fall into our laps
This is our story, this is our life design
Super nova exploseions, our gigantic aspirations
We'll face demons despite our verve, fear is our greatest curse
History's in the past and the future's unknown, what's inside can be controlled
Shout, shout, shout it from the mountain top, we'll keep pushing and we'll never stop
This is our story, this is our life design
We drink, we drink, we drink from the cup of life
This is our story, this is our life design
