

I Wanna Be Down (feat. MC Lyte)

Brandy

I would like to get to know if I could be
The kind of girl that you could be down for
'Cuz when I look at you I feel something tell me
That your the kind of guy that I should make a move on And if I don't let you know, then I won't be for real
I could be wrong, but I feel like something could be going on
The more I see you the more that it becomes so true
There ain't no other for me it's only you I wanna be down with what you're going through
I wanna be down, I wanna be down with you
No matter the time of day or night it's true
I wanna be down I know anybody's gonna be lonely
Without the reason they got someone to care for
Maybe all you need's a shoulder to cry on
If that's a fact than I'll be more than you ever could dream of If all you need is my time that I got plenty of
I'll dedicate all my love until you call me baby
I wanna stay by your side, be there to cool you out
And let you know everything will be all right I wanna be down with what you're going through
I wanna be down, I wanna be down with you
No matter the time of day or night it's true
I wanna be down I wanna be down with what you're going through
I wanna be down, I wanna be down with you
No matter the time of day or night it's true
I wanna be down Down, down, down
Down, down, down I wanna be down with what you're going through
I wanna be down, I wanna be down with you
No matter the time of day or night it's true
I wanna be down
