

No Love

The Get Up Kids

If I gave everything would you still listen to me?

If I gave everything would you still listen to me?

It could be so much better than this, It could be so much better
And I don't want you to love me anymore
And I don't want you to love me anymore than enough
I can't be held accountable if you can't make up your
mind tonight

As much as I would like to I can't put my hands all over you

If I, I put myself in that position myself will be immune to you

Keep my heart from breaking if you can't make up your mind
If I gave everything, if I gave

If I gave everything, if I gave
And I don't want you to love me anymore

And I don't want you to love me anymore
If I came home one last time, think of what the two of us could do

If I came home one last time, think of what the two of us could do

I guess we'll never know
