in Our Angelhood

Cocteau Twins

He's gonna chalk you out
In his angelhood
He's got the love, let- let us
Like he said he would, like he said he would
He's gonna chalk you out
In his angelhood
Please stand alone and let usLike he said he would, like he said he would
Like he said he would
Like he said he would
Like he said he would
Like he said he would
Like he said he would
Like he said he would
Like he said, the angelfish
In our angelhoodNow our heart's on the edge
Like you said they would, like you said they would
We're truly angelfish
In our angelhood
Now our heart's on the edge
Like you said they would, like you said they would
Like you said they wouldIn our angelhoodIn our angelhoodIn our angelhoodJudging you, angelhood, judging youIn our angelhoodIn our angelhoodIn our angelhoodJudging you, angelhood, trust in himIn our angelhoodIn our angelhoodIn our angelhoodJudging you, angelhood, judging himIn our angelhoodIn our angelhoodIn our angelhood
