

And I Drove You Crazy

[Banks](#)

(And I drove you crazy)Even though I should of known
It was a bad idea to love you
All I wanted was to lift each other up
All I wanted was to lift each other up
I couldn't even find a date or navigate a way around you
All I wanted was to lift each other up
I never wanted you to hurt too much to touchWhat are you looking for
Wanted to be your girl
And anything you wanted
Baby I tried to beWhat are you looking for
Wanted to be your girl
Any way you wanted me
Baby I tried to beWhat are you looking for
Wanted to be your girl
And Any way you wanted me
Baby I tried to beWhat are you looking for
Wanted to be your girl
And any way you wanted me
Believe I tried to be(And I drove you crazy)Oh I see that looking back
I know I blocked out all the red flags
I should have seen that you would only mess me up
I should have seen that I would only mess you up
Oh I know you hurt, I know you hurt, I drove you crazy
You should have seen that I'd only mess you up
I should have seen eventually you would give upWhat are you looking for
Wanted to be your girl
And anything you wanted
Baby I tried to beWhat are you looking for
Wanted to be your girl
And any way you wanted me
Believe I tried to be(And I drove you crazy)(And I drove you)
