

# Familiar Realm

CKY

with the pressure on,intent is to run,  
when you're feeling ineffective and dumb,  
you bet it's true, the event is you,invaded by a swarm of confliction,  
been penciled, in but never begun,  
infected sense, the insistant one,if grieving is today, you've entered a familiar realm,  
with pesimistic views, you've entered a familiar realm,break out and carry on,if responsibilities are ignored,  
then the penalties will soon be endured,  
potential risks beyond control,fortune isn't fame, you've entered a familiar realm,  
if they've told you who to be, you've entered a familiar realm,break out and carry on,invaded by a swarm of  
confliction,  
been penciled, in but never begun,  
potential risks are beyond control,if nothings left to say, you've entered a familiar realm,  
if they all get in the way, you've entered a familiar realm,if they've told you who to be, you've entered a  
familiar realm,  
fortune isn't fame, you've entered a familiar realm
