The Love Of A Woman

Diamond Rio

I walked half way across this town
Singing in the pouring rain
I knew someway somehow
I had to see your smiling faceSome people need some time
Some people need their space
But when youre not in my arms
Youre too far awayFor the love of a woman
The love of a woman like you
The love of a woman
Theres nothing so strong and so trueI prayed to God above
And Ive searched my whole life through
For the love of a woman
The love of a woman like youMy friends all ask me why
I lay my heart on the line
But somewhere deep down inside
They know exactly whyWhen it dont go like you plan
Theres nothing that hurts so bad
But when it works like it should
Theres nothing on earth known to manLike the love of a woman
The love of a woman like you
The love of a woman
Theres nothing so strong and so trueI prayed to God above
Ive searched my whole life through
For the love of a woman
The love of a woman like youI prayed to God above
Ive searched my whole life through
For the love of a woman
The love of a woman like you
For the love of a woman
The love of a woman like you
