

# Honey & I

## HAIM

[verse 1]

Goodnight, I know there's nothing good in goodbye  
But you lead me to no other line, no other line  
Eyes wide when you walked through the door, you  
Made your way across the floor  
All of the girls that're trying that dance, try that dance[Bridge]  
No, no, no, no  
See I'm not afraid no more  
(I'm not afraid no more)  
To turn you away no more  
(Turn you away no more)  
To turn you away, to turn you away[Chorus]  
Cause my honey and I, yeah yeah  
My honey and I (x3)  
D-doing just fine, yeah  
Honey and I (honey and I)  
My honey and I (x3)  
D-doing just fine, yeah[Verse]  
Oh, no, no, no  
I don't love you just because  
Love wasn't what I thought it once was  
But I thought it once was  
Telling each other everything  
Picking up your wedding rings  
No, now I know and now I see  
I'm not afraid no more  
No no no no no no[Bridge]  
So why are you always trying to stay at home?  
(Why are you staying there?)  
This all can't be played alone  
(This all can't be played alone)  
It was made to be played with...[Chorus]Oh oh (oh oh) (x2)  
Ah ah yeah
