

Punks and Drunks

Down By Law

Some came from the east
Some came from the west
But was the right time for these four
To be one of the best
Gonna two find a guitar man
Gonna two be a rock and roll band
No way out when its in your blood tonight
 No way no way
 No way out
We knocked down a hundred doors
We'll knock down a hundred more
Never doubted what we shouted
 Now we've evened the score
Now you're looking around this town
 Looking to get out
 But now I'm in for good!
 Guitar chords are ringing out
 Yeah we're in this thing for good
No way no way no way no way out!
