Systematic Instruction

Pestilence

The propaganda machine
Is spreading a prophet's doctrine
Everywhere are effigies
Contributing to insanityThe dictator is calling out his canonization
A perfect cloak for coming aggrandizement
He's leading the land to divine ecstacy
Controlling the masses: He's omnipotentChildren marching off to war
Persueing a sacred end
Manipulated legionaries
The theory's drummed in their headsGuided weapons or gas can't stop 'em
Obedience to orders, execute them blind
Killing, destroying, almost imperturbable
But don't blame them: The brainwashed mindsSystematic instruction
Total conformation
Religious indoctrination
Sacred transformationInspired by a former regime
Learned nothing from world war two
Stirring up hate against opponents
Leading the country into doomBorn and raised with religion
Fanatic and ready to fight
Contrary to non-supporters
They were told to be right
