

# In Your World

## Cloud Control

I'm hurting you again to lonely to pretend  
Like everything is new, I promise you to blow it all away  
In your world no one is dying alone  
Too broken, to belong  
Too weak, to sing along  
I'll comfort you my friend, helping you to blow it all away  
In your world, no one is trying alone  
In your world, no one is dying alone
