

# More Than You Are

## Grinspoon

Were you neurotic as a child?  
Did they come around and watch your style?  
Did you have plans to be a star?  
Did you have plans to become more than you are? Maybe rock was in your dreams  
Maybe being there was far too obscene  
Swing it high and swing it low  
Swing it anytime where you wanna go More than you are  
More than you are  
More than you are now  
I'm more than you are  
More than you are  
More than you are now Yeah, alright, yeah  
Yeah, yeah, alright Were you neurotic as a child?  
Did they come around and watch your style?  
Did you have plans to be a star?  
Did you have plans to become more than you are? More than you are  
More than you are  
More than you are now  
I'm more than you are  
More than you are  
More than you are now
