

# Out of Nowhere

**Keni Thomas**

Struck by lightning  
My heart's on fire  
Can't stop burning  
Woke me like the wind  
In the middle of the night  
Tossin' and turning  
Chorus  
It came right out of nowhere  
Without me ever knowing  
This thing we got  
Is really going somewhere  
Suddenly love is in the air  
It came right out of nowhere  
Lost and lonely  
Were my best friends  
They just left me  
Love and Lucky  
Been chasing me down  
Gonna let them catch me  
Chorus  
Ain't it funny  
The moment I stopped looking  
How you found me  
I know its crazy  
But I can't live  
without your arms around me
