These Sad Times

The Softies

Your hand is mine so suddenly
What do you find so new in me?
It's just today that makes you think you care
Tomorrow will bring you a new affairYou don't need me like you say you do
It's just these sad times... we're going throughYour heart can see what it missed before
I'm still just me, nothing less or more
It's just today that is bewitching you
I think tomorrow you will see that tooYou don't need me like you say you do
It's just these sad times... we're going throughYour hand is mine so suddenly
When did you find this good in me?
It's just this day that you don't want to end
Tomorrow you'll fall out of love againYou don't need me like you say you do
It's just these sad times... we're going through
