

# Many Ways (feat. Jenny Wahlström)

## Ferry Corsten

Think of all the places we have seen together  
Back when it was just you and I  
And all the finger tips that touched our hearts and wondered  
Where we found the things we have in life But now I wonder where did it go  
But it's alright  
'Cause I'll be fine as long as I know  
There are many ways to  
There are many ways to  
There are many ways to change your life There are many ways to change your life Think of all the places  
Think of all the places  
Think of all the places  
Think of all the places Think of all the places we have seen together  
Back when it was just you and I  
You and I, you and I, you and I, you and I  
You and I, you and I, you and I, you and I Think of all the places we have seen together  
Back when it was just you and I  
And all the finger tips that touched our hearts and wondered  
Where we found the things we have in life And now i wonder where did it go  
But it's alright  
'Cause I'll be fine as long as I know  
There are many ways to  
There are many ways to  
There are many ways to  
There are many ways to  
There are many ways to  
There are many ways to  
There are many ways to  
There are many ways to  
Change your life There are many ways to  
Change your life
