Rush

S Club 8

Feel the rush
Burning up, burning up
Ohhh yeah
I can't get enough

The day you came
I saw your face
And I knew right away
(My world just flying, energy is flying)

It's chemical, illogical
But now the game's in place
(I just gotta have ya, couldn't live without ya)

'Cause it's so good
It happens every time you're near
You know if
I could, I never let it fade

I can feel the rush
Now I know it must be love
It's how my heart is burning up
It's melting away

I can feel the rush
Adrenaline is rising up
'Cause in my heart, I can't get enough
It won't go away

Feel the rush
Burning up, burning up
Ohhh yeah
I can't get enough

The day you came
You called my name
And I went up in flames
(My heart is beating faster, on a roller coaster)

It's so magical, spiritual

No, I just can't explain
('Cause every time we're closer, love would be the other)

'Cause it's so good
It happens every time you're near
You know if
I could, I'd have you fold away

I can feel the rush
Now I know it must be love
It's how my heart is burning up
It's melting away
I can feel the rush
Adrenaline is rising up (risin up, risin up)
'Cause in my heart, I can't get enough
It won't go away....

I can feel the rush
It's how my heart is burning up
It's melting away

I can feel the rush
Adrenaline is rising up
'Cause in my heart, I can't get enough
It won't go away
