Planes

Crackpot

Driving fast but I am nowhere
I'm at home when I am out there
I speak louder when I'm silent
Tryna be somewhere I'm not but I
I'm so confused, I just like you
Ooo I can see in front my eyes
Wake up in another life
I don't like planes
But I love to fly Love to fly
I got friends but I'm still shy
Sometimes I laugh sometimes I cry
I don't like planes
But I love to fly Love to fly
I feel lost but
I'm surrounded by a million perfect strangers
You're like lightning I'm so grounded
But I'm flying when I'm next to you
I'm so confused, you might be too

Ooo I can see in front my eyes
Wake up in another life
I don't like planes
But I love to fly Love to fly
I got friends but I'm still shy
Sometimes I laugh sometimes I cry
I don't like planes
But I love to fly Love to fly
I'm so confused, I just like you
Ooo I can see in front my eyes
Wake up in another life
I don't like planes
But I love to fly Love to fly
I got friends but I'm still shy
Sometimes I laugh sometimes I cry
I don't like planes
But I love to fly Love to fly
