Malediction

Blood Red Throne

Vision straight from hell
As it spread it's wings before you
Malice shadows
Your infected soul
Assidious formula of sadistic blacknessPutrefaction from within
A fusion of black flesh and monstrosityPutrefaction to come
As the pillar of life collapse
Extreme shockpulse of anguish
Rage the face of the earth
Distinct peril
Extermination of divine abominationSevere seysures of blood craze
Until you havent humanitySevere seysures of blood craze
Until you havent humanityBlack flesh, malediction
