

# Singing This Song

## Brother Ali

singing this song let the whole world know  
singing this song let the whole world know  
singing this song let the whole world know  
singing this song let the whole world know  
singing this song let the whole world know  
singing this song let the whole world know  
blood on our hands its wetter than it ever was  
we say its getting better yet it seldom does  
everybody wanna fuss but what gets discussed  
when its all said and done what will be said of us  
this is who we are not who we have to be  
in the lasting aftermath of a tragedy  
dont wanna talk no more i heard it all before  
i just know that i dont want this on my heart no more  
speeding on a crash course with our final hour  
only thing that can bring us back is our finest hour  
excellence flow from every precious soul is the  
only way that i know to harness that kind of power  
we can shine brighter sing bigger love louder  
we can dream farther hope harder work smarter  
this is that moment sand flowing through the hour  
glass is our only opponenent that we have  
all around the world different song same message  
dignigty in that spotlight and lifes precious  
when we raise voices were joining a chorus  
youre not a solo the harmony is enormous  
echo john lennon we echo nina simone  
we echo my brother chuck d that legacy lives on  
and when the struggle stress you  
let it bless you keep you strong  
and may your voice live on forever in that song  
dr. betty and malcom shabazz  
coretta and martin king  
singing this song let the whole world know  
singing this song let the whole world know  
singing this song let the whole world know  
singing this song let the whole world know  
and so if we want to get anywhere we have to be self loving  
enough, to be honest with ourselves, to do some soul

searching. im not talking about soul searching to see whats  
inside our soul, we got to find out what the hell happened to  
our soul. weve got to find that shit. i want my humanity back  
i want to be a human being again. i want to live in a fair world  
weve got to decide to rejoin the human family again. were  
not talking about just this case, we not talking about just  
this issue, were talking about weather or not were going to  
be human beings again. peace!
